Monkton Hall

Architectural Survey File

This is the architectural survey file for this MIHP record. The survey file is organized reverse-chronological (that is, with the latest material on top). It contains all MIHP inventory forms, National Register nomination forms, determinations of eligibility (DOE) forms, and accompanying documentation such as photographs and maps.

Users should be aware that additional undigitized material about this property may be found in on-site architectural reports, copies of HABS/HAER or other documentation, drawings, and the "vertical files" at the MHT Library in Crownsville. The vertical files may include newspaper clippings, field notes, draft versions of forms and architectural reports, photographs, maps, and drawings. Researchers who need a thorough understanding of this property should plan to visit the MHT Library as part of their research project; look at the MHT web site (mht.maryland.gov) for details about how to make an appointment.

All material is property of the Maryland Historical Trust.

DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

Monkton Hall is a two storey structure of brick and stone. Oriented with its (north) gable end to the street, it extends three bays in depth perpendicular to the street. Its principal storey, raised one storey above street grade, is of brick, with every seventh course headers; it is considerably taller than the ground storey. The ground storey, and the basement, above grade on the south and east, are of stone. The corbeled brick cornice includes a sawtoothed and a square dentiled course. Brick jack arches support the masonry above the 6/6 windows. Windows of the principal storey have taller panes than those below. A broad, arched opening provides access into the basement on the east side. Several first storey openings have been, at various times, both doors and windows.

Internally, each storey is, basically, one room. The only staircase is now in the southwest corner, but one may have been near the north end, associated with the principal entrance, as evidenced by a patch in the floor. A partition may have enclosed a narthex at the north end of the principal storey, now outlined on the floor, and on the walls.

The first floor joists, exposed in the basement, are circular sawn.

Interior trim is very plain; window jambs of the principal storey are pplayed and trimmed with a wide, beaded architrave.

A sign of recent vintage identifies 1861 as the year of construction, which, upon examination of the building, is an acceptable conjecture.

James T. Wollen, Jr.

STATEMENT OF SIGNIFICANCE

Monkton Hall is a brick structure of mid 19th century origin which has been converted into a residence.

This structure is on part of Lot 68 purchased by Samuel Miller from the Meredith family in 1849. (-1) The building was probably built as a store house by Miller in connection with his "store" and Monkton Hotel. The structure appears but is not labeled on the 1877 map. In the Miller Trustees' sale in 1917, this structure is described as "a brick building with warehouse and coalbins below and a large hall above". There was a blacksmith's shop behind this building along the railroad tracks.
